SPIT Computer Engineering
Regular Subject Details

Compiled from the SPIT undergraduate curriculum PDF

Teaching Scheme Abbreviations

Abbreviation	Meaning
L	Lecture hours per week.
T	Tutorial hours per week.
P	Practical / laboratory hours per week.
O	Other learning or self-study hours (interpretation; the PDF does not explicitly expand this label).
E	Engagement hours, as labelled in the source teaching scheme (the PDF does not define the calculation explicitly).

Assessment Abbreviations

ISE = In-Semester Evaluation • MSE = Mid-Semester Examination • ESE = End-Semester Examination

Reading the tables: Values are transcribed from the uploaded curriculum where available. A dash indicates that a value is not applicable or is not specified in the source. First-year BSESE, SEC, BSES and AEC options are shown as individual reference tables; they are alternatives within choice groups, not a set of courses every student necessarily takes together. Where the semester summary repeats an option bank, the relevant slot is cross-referenced rather than duplicating every option table.
